MathSciNet

- 3,820,000+条文摘
- 2,100+种期刊
- 100,000+种图书
- 400,000篇会议论文

《学科信息素养培训计划的设计与实施 ——以清华大学数学学科为例》

曾晓牧

(2)访谈结论。第一,在科研工作中,最常用的文献类型是期刊论文;会议论文,会用到,但不会专门去检索查找;图书使用得较少。第二,最常用的数据库是 MathSciNet 有 1 位教师使用与 MathSciNet 类似的 Zentralblatt MATH。MathSciNet 是美国《数学评论》,由美国数学学会(American Mathematical Society)编辑;Zentralblatt MATH 是德国《数学文摘》,由欧洲数学学会(European Mathematical Society)等 3 个机构共同编辑。这两个数据库是收录数学学科期刊论文、会议论文和图书的文摘与评论数据库,其特色是:很全面地收录数学学科文献;很多文章有同行评论(review),通过同行评论,可了解文章的价值,同时也比较关注自己文章的同行评论。至于 SCI 数据库,科研工作并不使用,只用于科研评价,在评职称、报奖时,检索论文的收录引用情况。

除了图书馆数据库,最常用的检索工具是 arXiv。arXiv 是由美国国家科学基金会和美国能源部资助,Cornell 大学维护 and 管理的收录数学、物理学、非线性科学和计算机科学等学科文章的免费开放获取的预印本文库。受访教师表示几乎每天使用该数据库,查看是否有自己研究方向的最新文章。

Abstract

This article is devoted to the study of the existence and uniqueness of mild solution to time- and space-fractional stochastic Burgers' equation perturbed by multiplicative white noise. The required results are obtained by stochastic analysis techniques, fractional calculus and semigroup theory. Moreover, we prove the regularity properties of mild solution to this generalized Burgers' equation in the framework of Bochner spaces.

JOURNAL OF THE EUROPEAN MATHEMATICAL SOCIETY

[Full-Text PDF \(264 KB\)](#) | [Metadata](#) | [↑ Table of Contents](#) | [↑ JEMS summary](#)

Online access to the full text of *Journal of the European Mathematical Society* is restricted to the subscribers of the journal, who are encouraged to communicate their IP-address(es) to their agent or directly to the publisher at subscriptions@ems-ph.org

Volume 20, Issue 4, 2018, pp. 865–901

DOI: 10.4171/JEMS/778

Published online: 2018-03-05

Boundedness of moduli of varieties of general type

Christopher D. Hacon, James McKernan^[1] and Chenyang Xu^[2]

(1) UCSD, La Jolla, USA

(2) Beijing University, China

We show that the family of semi log canonical pairs with ample log canonical class and with fixed volume is bounded.

Keywords: Moduli, boundedness, general type, minimal model program, abundance

Hacon Christopher, McKernan James, Xu Chenyang: Boundedness of moduli of varieties of general type. *J. Eur. Math. Soc.* 20 (2018), 865-901. doi: 10.4171/JEMS/778

Journals

AMS peer-reviewed journals are of the highest quality in mathematical research. Our journals have been published since 1891 and cover a broad range of mathematics. Each journal is managed by editors who are prominent in their fields, and each is unique in its offering of articles, book reviews, and reports. In addition to publishing and distributing printed journals, the AMS offers [searchable](#) electronic versions that are available prior to the print versions. When the journal is available in electronic format, the electronic version is considered the version of record. Get information on how to [subscribe to our journals](#) or [browse our current subscription rates](#).

NEW! AMS journal contributors receive 15% off Charlesworth's specialist language editing and [publication support services](#).

All articles submitted to journals published by the AMS are peer-reviewed. The AMS has a single blind peer-review process in which the reviewers know who the authors of the manuscript are, but the authors do not have access to the information on who the peer reviewers are. Questions about the initial submission process should be directed to jml-initsub@ams.org.

The AMS has maintained one of the world's most respected mathematical book publishing programs for over 100 years. AMS eBook Collections present our book series in digital format, allowing for convenient access throughout your library or institution. Our Collections are DRM-free and offer a number of library-friendly features, making them easy to acquire and convenient for patrons.

The eBook collections, which will continue to grow year after year, are available for one-time purchase with perpetual access and no maintenance fees. The Contemporary Mathematics series is available via current-year subscription.
